To Talk About Drinking Water. An interesting lecture is to be delivered under the auspices of the Sanitary League at the Columbian University hall next Monday night at 8:15 o'clock. Dr. Charles his subject will be "Drinking Waters; Good, Doubtful and Dangerous." Dr. Smart will speak of water supplies in general and their constituents, or the various kinds of natural waters and the impurities to which each is specially liable, on the methods of anais specially liable, on the methods of analyzing water, and on methods of purification. During the lecture he will illustrate, in a popular way, methods of analysis, and the address will contain much valuable information for every householder. Dr. Smart has had large experience in this line of sanitary work. He was analyst to the variously board of health developments and that of 25 loaves a day from the Havenard board of health developments. national board of health during the years of the active existence of that board, and is at present chairman of the standing com-mittee on the pollution of water supplies, appointed by the American Public Health Association, and professor of sanitary chemistry at the Army Medical School in this city. Like other lectures given at the invitation of the Sanitary League, this lec-ture is free to the public.

#### The Da Costa Incident. To the Editor of The Evening Star:

In this evening's issue, referring to an authority for naval commanders to use force to protect American citizens and their interests, you seem to give the unnamed commander the credit that belongs to Gen. Henry R. Jackson of Savannah, Ga., who was then our minister to Austria, and who so ably upheld the rights of Da Costa, an applicant for American citizenship. It was by order of Gen. Jackson (afterward minis-

HELPING THE NEEDY

Meeting of the Central Relief Committee. and Reports Submitted.

Generous Contributions of Money and Clothing-The Canvass Not Yet Completed-Distributing Agencies.

The regular meeting of the central relief ommittee took place yesterday afternoon in the Post building, and proved interestfrom the committee on distribution, and the other from Treasurer Wilkins.

After Chairman Tracey had called the meeting to order, he stated that the canvassing committees had received in cash, up to Monday evening, \$6,925.26. Added to this, over \$3,000 worth of food, provisions and clothing, the grand total to date of money and supplies was about \$10,000.

The Committee on Distribution. In this connection the report of Chairman Lawrence Gardner of the committee on distribution was read. It stated:

"The committee on distribution recommend the appropriation of the following sums: Police department, \$1,500; Associated Charities, \$1,000; Young Men's Christian Association (colored), \$150; United Hebrew Charities, \$100; Trinity parish branch of St. Vincent de Paul, Georgetown, \$100; Deaconess' Home, \$50; total, \$2,900.

"There are in hand numerous applications for appropriations from local organizations, but the committee has not felt justified in increasing the list of agencies in view of the present financial condition and prospects of the movement; and, also, in view of the fact that further multiplication of agencies, without a perfected system of checking, such as we are in the process of organizing, would increase the risk of duplication and of aiding unworthy persons.

"From the information received from the chairman of the canvassing committee, who is prevented by sickness from attending this meeting, there is at hand unexpended and unappropriated a balance of about \$5,000, the major part of which has not yet been turned over the transfer of the contractions." been turned over to the treasurer of the central relief committee, but soon will be. It is not deemed wise to exhaust the fund It is not deemed wise to exhaust the fund in hand, and to rely entirely upon the chances of future collections, in view of the fact that there are at least two months ahead during which relief must be afforded. "In the distribution of appropriations regard has been had to the work of the various organizations in the past, to the quickness and system with which relief reaches, and to the condition of balances of appropriations already made, some of the minor ones not yet being exhausted. The police priations already made, some of the minor ones not yet being exhausted. The police cover the entire District without the exception of any locality. No other organization can do this so conveniently or so promptly. The Associated Charities, with its broad plan, does not claim to compete with the police agency in some parts of the District outside the city limits.

"Various local organizations have recent.

"Various local organizations have recent-ly filed applications. The committee, as far as possible, unless otherwise instructed as possible, unless otherwise instructed, will adhere to the rule of dealing with central bodies, in order that greater responsibility may be secured, and the danger of duplication and imposture lessened.

Generous Donations of Supplies.

"A gratifying feature of the week's work, which has a very important bearing upon future prospects, is the very liberal response to the committee canvassing for donations in kind. Fuel, provisions, clothing Smart, U. S. A., is to be the lecturer, and and bedding have been sent in large quantities from many persons to the central relief committee rooms. The donations af supplies received number in all 210. They include some very large orders, such as 1,000 loaves of bread from Messrs. Schneider & Berens, 25 loaves of bread every day enner Baking Company to the Associated Charities. In addition to the donations above mentioned, the committee has also received a very large number of orders for supplies from business firms and indi-viduals, including about thirty tons of coal. "Much of this very important aid to the undertaking of general relief has come through the members of the canvassing committee, to whom the committee on distribution is also indebted for much information regarding cases calling for relief.
"There have been sent from the central Mr. John R. Thompson, aged sixty-five relief committee rooms to the various dis-years, living at 613 C street southeast, had his leg broken at 17th and G streets vester-wagon loads of relief supplies. There are supplies enough on hand at present to bring the distribution today up to twenty-five

of supplies thus furnished.
"Your committee has heard of some cases Yesterday Albert J. Deponal, living at 722 20th street northwest, had his right leg broken below the knee by falling from one of Cornwell's wagons on Pennsylvania avenue between 12th and 13th streets northwest. He was treated at the Emergency Hospital and sent to his home.

or supplies thus furnished.

"Your committee has heard of some cases in which unauthorized persons have collected money, and it is deemed wise that the public should be warned against such impostors and reminded that all collectors from the canvassing committee carry credentials with them and are desired to operate within the districts to which they are assigned. While the responses of the public

Boteler stated that upwards of \$200 was on hand, which he would turn over to the The report of the treasurer showed that

\$10,073.41 had been received and \$4,863.53 had been disbursed. Secretary Somerville read a letter from pupils of the high school offering to give an entertainment for the benefit of the relief fund, and Mr. Somerville was directed to write a letter to Mr. William T. Kirby that the central committee would be glad to receive any funds that may be raised from such an entertainment. The entertainment will be given at Martyn College on February 14, 15 and 16, by pupils and graduates of the high school.

The meeting adjourned to meet again Tuesday, February 6, at 4 o'clock p. m.

Good Templars Elections. Liberty Lodge, I. O. G. T., met at their hall last evening, corner of 8th and I streets southeast. There was a full attendance of the members, as also a fraternal visit from Friendship Lodge. The following of gas was observed, and Jenkins was found in an unconscious condition. GUILTY OF MURDER. This is the Verdict Rendered in the

Case of Dr. Edward Leon. Shortly after 8 o'clock last evening the jury in the case of Dr. Edward Leon, \$-. W. A. Riduvin to E. R. Drew, do.; \$-. charged with the murder of the unnamed A. E. Riddle to Lucinda H. Hall, sub 26,

As stated in The Star's report of the case yesterday, counsel for the defense concluded the closing argument for Leon at ing. Two reports were submitted. One 2:20 yesterday afternoon, being followed by District Attorney Birney. Mr. Birney spoke briefly, presenting the case for the government in a very impassionate but exceedingly effective manner, impressing the fact upon the jury that the question at issue was whether Miss Beach, a young, motherless girl, hardly more than a child. told the truth, or whether Dr. Leon, whose past reputation was far from good, and whose life was at stake, had lied on the witness stand to save his neck.

Judge Cole, in a brief charge, told the

jury that the prisoner was not charged with having procured an abortion, but with the murder of the babe, and explained that if the defendant had performed the abortion the defendant had performed the abortion knowing that the child was quick with life, he was guilty as charged. The burden of proof was, stated the court, on the prosecution, and while Miss Beach stood in the case in the position of an accomplice, and her testimony should have to be taken with great caution, yet if the jury found that she was corroborated by other witnesses or by known facts in the case, a conviction

or by known facts in the case, a conviction could be founded upon her testimeny.

The jury retired at 3.25, and a recess was taken until 5 o'clock, but the jury not having agreed at that time a further recess was taken until 8, when the jury came down, and, in answer to their inquiry, were informed that a verdict could be based upon the testimony of Miss Heach, provided the jury found that her testimony was corroporated. Again retiring, the jury returned in orated. Again the state of suilty of murder. The prisoner took the about fifteen minutes' time with a verdict of guilty of murder. The prisoner took the verdict in an apparently indifferent manner, and after his counsel had given notice of a motion for a new trial was taken back to jail to await the imposition of the sentence of death, provided, of course, the motion for a new trial is overruled.

#### AMUSEMENTS.

The Old Homestead .- On Monday night next the doors of Albaugh's Grand Opera House will be opened to a week's engagement of "The Old Homestead," with a cast chosen from among the best artists before the footlights. Of the play itself it may justly be said that there is no play now before the public that is more deeply rooted in the annals of the stage than Denman Thompson's pastoral idyl. From its very first presentation and throughout its leng run of four years at the Academy of Music in New York city it became firmer seated in the hearts of theater goers than any other production, and is more popular today than during its first performances. The beautiful scenic effects, notably the remarkable reproduction of Grace Church, which every visitor to New York remembers, not only for its architectural beauty, but for the tness of its chimes and the grandness of its choral service, is simply magnificent; as is also the elaborate panoramic view of

the countryside near Swanzey, in the far-away granite state—New Hampshire. Oliver Byron.-Few melodramatic stars have attained a greater or more enduring popularity than that enjoyed by Oliver Byron. He has presented to the public some of the most thrilling and effective plays known to the stage. His appearance at of the most thrilling and effective plays known to the stage. His appearance at Harris' Bijou Theater next week will unquestionably be a welcome event. During the week he presents two plays. On Monday, Tuesday and Wednesday, "The Plunger," and on Thursday, Friday and Saturday, "The Heart of Africa." As is expected with a production in which this star figures, the utmost care has been taken in mounting the play. Not only are the scenic preparations play. Not only are the scenic preparations extensive, but the company has been se-lected with such care as to insure a com-petent presentation of each character. Gus Hill's Novelties.—Gus Hill's World of Novelties will be the attraction at the

Lyceum Theater next week. Included in the company are the Miller Brothers, Fred. H. Leslie and his school of trained dogs, Geo. H. Wood, Dan McAvoy and Jessie May, Morrisey and Hickey, Miss Estelle Wellington, Fred Roberts, Edward Earle, the Highleys, Gus Hill and Rose and Noble. The performance concludes with the farce comedy "A Night Off."

The Children's "Pinafore."—Next Saturday afternoon at the New National Theater there will be a repetition of the excellent performance of Gilbert and Sullivan's "Pinafore" by the children that made such

performance of Gilbert and Sullivan's "Pinafore" by the children that made such a decided hit last spring. The cast and chorus are nearly the same as last year and it is expected that even better work will be done. Prof. Harry Howard, who has drilled the little ones at the rehearsals, and who has brought them to a high state of vocal perfection, will conduct the performance with Mr. Magruder as stage manager, and Prof. J. H. Vermilya as director of the dances that will be introduced. The ager, and Prof. J. H. Vermilya as director of the dances that will be introduced. public should be warned against such impostors and reminded that all collectors from the canvassing committee carry credentials with them and are desired to operate within the districts to which they are assigned. While the responses of the public of the District in money and supplies to the appeal for the relief fund have been liberal, it is evident that a continuance of similar liberality will be needed to carry on the work during the winter season."

The report was adopted.

As to Georgetown.

Mr. G. G. Boteler of Georgetown inquired what arrangement had been made for the distribution of funds and clothing in Georgetown. He was informed that the Georgetown branch of the Associated Charities and the police were being used. Mr. Boteler stated that upwards of \$200 was on Clusck and an allegron by Demorssement. liger Geister," from "Orpheus," by Von Glueck, and an allegro by Demersseman. Mr. Sol. Marcosson, violin virtuose, will render the "Fairy Dance," by Bazzini. A program of this attractiveness merits a large audience, which it will doubtless have.

The prices are popular. Seats at Metzer-Georgetown Orchestra.-The final rehearsals of the Georgetown Orchestra.—The final renears-als of the Georgetown Orchestra for their concert Friday evening give promise that the program will surpass anything ever given by this well-known organization. So great has been the outside interest in these rehearsals, and the attendance of specta-tors has been so large, that an order had to great has been the outside interest in these rehearsals, and the attendance of spectators has been so large, that an order had to be issued that the remaining meetings before the concert should be private ones. Director Rakemann is endeavoring in every way to improve the standard of excellence. The stringed instruments have had several separate drills. Miss Sopha Church Hall, a contralto of great promise, will be heard for the first time in concert here; Mr. Rakemann will personally play the violin obligato to one of her songs. The "Air de Ballet," composed by Mr. Depret of the French legation, has been arranged for string orchestra, and its rendition is looked forward to with interest. Mr. John Porter Lawrence will play, with the orchestra, a brilliant piano concerto by Weber. Miss Anita Cluss, the talented harpist, will assist the orchestra. Seats at Metzerott's.

Dr. Jekyll and Mr. Hyde.—Rev. Robert Nourse, D.D., well known everywhere as a lecturer, will lecture tonight at the Tabernacle Congregational Church, on Ath street below B street southwest, on "Dr. Jekyll and Mr. Hyde." Dr. Nourse has decided to donate the entire proceeds of his lecture to the work of the Tabernacle Church. donate the entire proceeds of his lecture to the work of the Tabernacie Church.

Watches Our Companions. For 14 years past we've been repairing, making and adjusting watches for the people of the District of Columbia. Our claim is, that during that period we have never failed to give satisfaction to every patron. Why? Because we love our work, and time and attention is assured to every patron's case, or rather watch and case. Prices and charges are of the kind to suit modest spenders. Cleaning, \$1; hainspring, \$1, &c. All work is positively warranted.

E. G. Hines, 521 9th St., WARDER BUILDING. NATURAL PRESERVES BATORY'S NATURAL preserves, jedies, minceneat and cranberry sauce are the best, the most carefully made, free of chemicals, superior to home-made or any English imported. Prices moderate. We have succeeded the past three years to introduce them to the tables of our foremost families. Sold by all first-class grocers. I.
